

7.0 Purpose: Establish Guidelines For The Installation Of Smoke Detectors For The Elderly And Disabled.

7.01 Scope: All Fire Department Personnel.

7.02 **GOAL**

To install smoke detectors for individual citizens who are unable to install their own smoke detectors due to age and/or disabilities within 24 hours of Fire Department notification.

7.03 **POLICY**

Clovis Fire Department will contact and attempt to install smoke detectors as soon as possible.

7.04 **PROCEDURES**

When the Fire Department is notified by Senior Services that a smoke detector needs to be installed, the following steps should be taken. Headquarters will notify the Captain of that first-in area.

The Captain of the first-in area shall make every attempt to contact the requesting individual to set up a time to install smoke detector. If unable to contact the individual, the responsible Captain will request the following on-duty crew to contact, make an appointment, and install the smoke detector.

Once the smoke detector has been installed, the Bureau of Fire and Life Safety shall be notified.

NOTE: Smoke detectors will be at all fire stations. The Bureau of Fire and Life Safety will provide all smoke detectors to the stations.
