

Special Areas

Feel free to contact the Clovis Parks Division to see how you can offer your special skills to help your community become a better place to live.

If everyone does a little part, then great amounts can be accomplished.

Maintaining the Clovis Way of Life

2004-2005

How Can You Help?

The City of Clovis Parks Division maintains approximately 285 acres of City Parks and Landscaping. As Clovis grows, our City is challenged to preserve the quality of life currently enjoyed. With a small commitment, the citizens of Clovis can help to meet this challenge. The Clovis Parks Division is asking you to join us in helping to maintain the *Clovis Way of Life*.

Play Areas

As our children enjoy the many activities that our parks offer, it is important to provide them with the best possible environment.

You can help by volunteering to periodically clean the playground sand, wash play equipment, remove litter and clean graffiti.

Individuals, Families, Social Groups, Church Groups, Service Groups are all welcome. To Learn how you can become involve call: 324-2651.

Street Scapes

Another reason the City of Clovis is a step above other communities, is the beautiful street-side landscaping. As our community expands, landscape weeding and litter removal becomes more of a challenge.

Maybe you can help?

Trails

The City of Clovis has over 6 miles of community trails. The trail system is a great place for the entire family to run, walk or ride bicycles. Keeping the trails clean and enjoyable are great reasons to become a volunteer. Also, what an excellent opportunity to show the next generation the importance of community involvement.
